**Subject:** Re: Warm Springs

Jennifer,

I would be happy to visit with you about Warm Springs. As Dan indicates, I previously had direct involvement and have overseen recent years' efforts and projects related to the WS community water system.

I return to the office tomorrow (Wednesday).

Thank you,  
Mat

Thanks, Jennifer. Definitely a challenging situation. A number of positive steps have been taken over the past several months, but much remains to be done. There is the need for a dual focus aimed at continuing to ensure the near-term protection of public health while developing the managerial and financial systems necessary for stable and sustainable water and wastewater management for the longer term.

I am happy to fill you in a bit more if you would like to talk this weekend. **Ex. 6 Personal Privacy (PP)**  
**Ex. 6 Personal Privacy (PP)** Mat Martinson, head of our Permits, Drinking Water and Infrastructure Branch, can be your point of contact should you otherwise need information. Mat recently joined us from the Indian Health Service, where he had been personally engaged in the Warm Springs situation for several years, deploying and overseeing technical support for the tribe (with funding support through an IAG with the EPA).

I have copied Angela and Cami as the other senior managers in the Region 10 Water Division for their awareness and so that you have alternative points of contact given comings and goings during this time of the year.

**Subject:** Warm Springs

Dan

NPR has a story on Warm Springs this morning. I know you have been focused on this. Let me know how we can be of assistance. I have cc'd Christina Wadlington, our Communications Director.
